ICICET 2026 – Award Nomination Criteria (For Registration)

Applicants must ensure that their nomination satisfies the following criteria for the selected award category.

1. Best PhD Thesis Award

The nominee must have completed a PhD with a thesis demonstrating strong originality, research rigor, quality publications, clear societal or academic relevance, and significant contribution to the chosen field.

2. Innovation & Startup Award

The nominee must present an innovative product, technology or startup idea with demonstrated technical feasibility, clear problem–solution fit, prototype or MVP readiness, business or commercialization potential, and measurable societal or market impact.

3. Young Researcher Award

The nominee must show high-quality research output, innovation and independent research capability, participation in interdisciplinary or collaborative research, professional engagement, and strong future research potential.

4. Best Faculty Contribution Award

The nominee must demonstrate excellence in teaching and learning practices, curriculum innovation, impactful research and publications, effective student mentoring, institutional service, and active engagement with industry or community.

5. Best Student Project Award

The nominated project must address a clearly defined real-world problem, demonstrate technical depth and innovation, include a functional implementation or prototype, present validated results, and show strong practical or industrial relevance.

6. Best Institution Award

The nominated institution must demonstrate academic excellence, strong research performance, innovation and entrepreneurship ecosystem, faculty development initiatives, student achievements, active industry and international collaborations, and measurable social or community impact.

7. Best Women Scientist Award
